

# Subject: Streeroga and Prasutitantra

## Paper I – Prasutitantra

**Paper I**

**Part -A**

### 10 mark questions

#### **Point -1 - Stree Shariravigyana**

---

1. Write the definition of Stree and describe the external genital organs of female.
2. Write Pratham Avarta of Yoni in detail.
3. Describe the second and third Avarta of Yoni in detail.
4. Describe the Garbhashaya according to Ayurveda and modern science.
5. Describe the Stree Shroni according to Ayurveda and modern science.
6. Write the types of pelvis, describe gynecoid pelvis in detail.
7. Describe the normal female pelvis and write its obstetrical importance.
8. List the internal female genital organs, write any one in detail.
9. Describe the anatomy and functions of fallopian tubes.
10. Describe the anatomy and functions of ovary.
11. Write the Stnyavaha Srotas according to Ayurveda and modern science.

#### **Point -2 - Rajo Vigyana**

---

12. Write the age of Pratham Rajodarshana and describe the changes of the same according to Ayurveda and modern science.
13. Describe the Rutuchakra in detail according to Ayurveda.
14. Write the amount and Shuddha Lakshanas of Artava, describe the Rajhsvala Paricharya with its importance in present era.
15. Define the Rutukala and importance of the same; write the Rutumati Lakshanas and Rutumaticharya.
16. Discuss the status of Doshas during Rajahstravkala, Rutukala and Rutuvyatitkala.
17. Define the menstruation; Write the menstrual cycle in details.
18. Discuss the Hypothalamus – Pitutary –Ovarian axis.
19. Discuss the ovarian cycle in detail.

20. Discuss the process of ovulation with its hormonal changes.
21. Discuss the endometrial cycle in detail.

### **Point - 3 Garbha Vigyana**

---

22. Write the definition of Garbha and the Garbhadhanvidhi in detail.
23. Write Garbhavkranti in detail.
24. Write the Masanumasik Vridhi of Garbha in detail.
25. Describe the formation of Aparasakta according to Ayurveda and modern science.
26. Write the normal attitude, presentation and position of the foetus in utero.
27. Write the definition of Garbha and the Garbhasambhava Samagri in detail.
28. Describe the Garbhakara Bhavas and Panchabhautikatva of Garbha.
29. Write the functions of placenta in detail.
30. Describe the Garbha Poshana in detail.
31. Describe the types of lie of foetus with their presentations and positions.

### **Point - 4 Garbhini Vigyana**

---

32. Write the diagnosis of pregnancy during first trimester.
33. Describe the Garbhini Paricharya.
34. Write the causes, symptoms and treatment of abortion.
35. Write the examination and investigations during antenatal checkup.
36. Write the definition of Garbhasrava and Garbhapata, types, symptoms and treatment of abortion.
37. Describe the Garbhopghatkar Bhavas, write the causes, symptoms and treatment of Upavishtaka.
38. Describe the Garbhopghatkar Bhavas, write the causes, symptoms and treatment of Nagodara.
39. Write the Bahugarbhata in detail.
40. Write the causes, symptoms and management of ectopic pregnancy.
41. Describe the intra uterine growth retardation in detail.

### **Point - 5 Garbhini Vyapad**

---

42. List the causes of APH, write the types, clinical features and management of placenta previa.
43. Define the Garbhini Vishamayata, write the clinical features, types, investigations and treatment of the same.
44. Write the types, symptoms, investigations and management of Garbhini Pandu.
45. Describe toxemia of pregnancy.
46. Describe the causes, symptoms and treatment of Garbhini Chhardi.
47. Define the abruption placenta, write the etiology, varieties and clinical features of the same.
48. Define the anemia during pregnancy, write the causes, treatment and complications of the same.
49. What is emesis gravidarum, write the types of the same in detail.
50. Define the hyperemesis gravidarum, write causes, symptoms and treatment of the same.
51. Discuss the complications of pre eclampsia and preventive measures of the same.
52. Discuss the cause, clinical features and complications of abruption placenta.
53. Give detail description of Garbhini Pandu and its treatment.
54. Write the causes, types, clinical features and treatment of Garbhini Shoth.
55. Discuss the Garbhini Makkal according to Ayurveda and modern science.

## **Paper I**

## **Part -B**

### **Point -1 - Prasav Vigyana**

---

56. Write the mechanism of labour in detail.
57. Define the mechanism of labour and discuss it.
58. List the stages of labour and write the management of second stage of labour.
59. Discuss the events and clinical course of first stage of labour.
60. Discuss the events and clinical course of second stage of labour.
61. Discuss the events and clinical course of third stage of labour.
62. Define the first stage of labour, discuss the monitoring and management of first stage of labour.
63. Define the second stage of labour, write its management.
64. Define the third stage of labour, write its management.
65. Write the Upasthit prasava Lakshanas and its management.
66. List the Asannaprasava Lakshanas and its management.
67. Discuss the Prasav Hetu according to Ayurveda and modern science.

68. Describe Sutikagara as per Ayurvedic & modern view.
69. Describe normal labour and stages of labour.
70. Describe Prasava Paricharya and jatamatra paricharya as per Ayurvedic view.
71. Define partogram and monitoring of labour.
72. Describe episiotomy in detail.

### **Point -2 - - Prasav Vyapad**

---

73. Write the types, Gati and management of Mudhagarbha.
74. Define the Mudhagarbha, discuss its management.
75. Write the causes, types and surgical management of Mudhagarbha.
76. Write the causes, types, Gati and complications of Mudhagarbha.
77. Discuss the Garbhasang according to Ayurveda and modern science.
78. Discuss the Vilambit Prasava in detail.
79. Define the prolonged labour, write its causes and diagnosis of the same.
80. What is prolonged labour? Write its causes and management.
81. Write the causes, clinical features and treatment of Aparasang.
82. List the complications of third stage of labour, discuss any one in detail.
83. Define the PPH, write the causes, types and treatment of the same.
84. Define the cesarean section, indications, contraindications and complications of the same.
85. What is CPD? Write the preoperative, operative and postoperative procedure of LSCS.
86. Discuss the Kukshivipatan in detail.
87. Write the Prasava Pashchat Raktasrava in detail.

### **Point -3 Sutikka Vigyana**

---

88. Define Sutika. Discuss the anatomical, physiological and psychological changes during Sutika Avastha.
89. Define Sutika. Discuss the Sutika Kala and Sutika Paricharya in detail.
90. Define Sutika and write general Sutika Paricharya according to Desha.
91. Explain : Sutika Paricharya
92. Describe the numbers, Hetu, Samanya Lakshana and treatment of Sutika Roga.
93. Describe Sutika Kala, Sutikagara, and Sutika Paricharya.
94. Describe Sutika Paricharya in both ancient and modern point of view.
95. Define Sutika Jwara including Nidana, Lakshana, and chikitsa .

96. Define Stanya Dushti Nidana, Dushita Stanya Lakshana, its effect on child.
97. Ashta ksheera Dosha and disease produced by consumption of milk according to doshas along with treatment.
98. Write the Asta Kshira Dusti in detail.
99. Discuss the Sutika Makkal in detail.
100. Write the puerperal sepsis in detail.

**Paper I**

**Part -A**

**5 mark questions**

**Point -1 - Stree Shariravigyana**

---

1. How many Peshis are situated in female genital tract? Write the locations of the same.
2. List the Peshis and Marmas are situated in female genital tract?
3. Write short note on Tryavarta Yoni.
4. Write the measurement, Asthi and Sandhi of Stree Shroni according to Ayurveda.
5. Write short note on Artavvaha Srotas.
6. Write short note on Snyavaha Srotas.
7. Write short note on ovary.
8. Write short note on fallopian tubes.
9. Write functions of ovary and fallopian tubes.
10. Describe the outlets of gynecoid pelvis.
11. Describe the inlet of gynecoid pelvis in detail.
12. Write the obstetrical importance of pelvis.
13. Write the location and position of the uterus.
14. Write short note on vestibule.
15. Write short note on perineum.
16. Write the relations of vagina to nearby organs.
17. Write the relations of uterus to nearby organs.
18. श्रोण्यां पञ्च, .....त्रिकसंश्रितमेकं I
19. ....तस्यास्तृतीयेत्वावर्ते गर्भशय्या प्रतिष्ठिता I
20. यथा रोहितमत्स्यस्य .....गर्भशय्यां विदुर्बुधाःI
21. ....तत्र विद्धाया वन्ध्यात्वं मैथुनासहिष्णुत्वमार्तवनाशश्चा

## Point -2 - Rajo Vigyana

---

22. Write short note on Rajahnirman.
23. Write the changes during puberty.
24. Write short note on Rajahsvala Paricharya.
25. Define the Rutukala and write its duration.
26. Why does the conception occur during Rutukala?
27. Why does the conception not occur during Rutuvyatitkala?
28. Write short note on Rutumati Lakshanas.
29. Write short note on Shuddha Lakshanas of Artava.
30. Write the functions of FSH.
31. Write the functions of LH.
32. Discuss the feedback system of HPO axis.
33. Write the functions of oestrogen.
34. Write the functions of progesterone.
35. Write the tanner stages of pubertal development in girl.
36. Write short note on mature Graffian follicle.
37. रसादेव स्त्रिया .....प्रवर्तते |
38. ....रोमराज्यादयश्च विशेषा नारीणाम् |
39. शशासृक्प्रतिमं .....न विरञ्जयेत् |
40. नियतं दिवसेऽतीते सङ्कुचत्यम्बुजं .....योनिः संत्रियते तथा I
41. मासान्निष्पिच्छदाहार्ति .....शुद्धमादिशेत् |
42. गुञ्जाफलसवर्णं .....शुद्धमादिशेत् |
43. गते पुराणे रजसि .....गर्भाशयामृतुमतीमाचक्ष्महे |

## Point - 3 Garbha Vigyana

---

44. What is the Jarayu? Write the formation of foetal membranes.
45. Write the functions of amniotic fluid and normal amount of amniotic fluid at different - different gestational age.
46. Write anatomical abnormalities of placenta and umbilical cord.
47. Describe the Garbha Anga Vikruti.

48. Write the Garbha Avayavotpatti.
49. Importance of Garbhasambhava Samagri.
50. Formation of umbilical cord and amniotic fluid.
51. Write the Importance of Garbhakarabhavas.
52. Write the normal foetal attitude.
53. Define the attitude, lie, presentation and position of foetus.
54. Panchabhautika Avayavotpatti of Garbha.
55. Write the Varnotpatti of Garbha.
56. ध्रुवं चतुर्णां सान्निध्याद्गर्भः स्याद्विधिपूर्वकम् |  
ऋतुक्षेत्राम्बुबीजानां सामग्र्यादङ्कुरो यथा ||
57. ततस्तदधः प्रतिहतमूर्ध्वमागतमपरं चोपचीयमानमपरेत्यभिधीयते I
58. आभुग्नोऽभिमुखः शेते गर्भो गर्भाशये स्त्रियाः |
59. गर्भस्य चत्वारि चतुर्विधानि भूतानि मातापितृसम्भवानि | आहारजान्यात्मकृतानि चैव सर्वस्य सर्वाणि भवन्ति देहे ||
60. बीजात्मकर्माशयकालदोषैर्मातुस्तथाऽऽहारविहारदोषैः | कुर्वन्ति दोषा विविधानि दुष्टाः संस्थानवर्णेन्द्रियवैकृतानि ||
61. गर्भस्तु खलु मातुः पृष्ठाभिमुखऊर्ध्वशिराःसङ्कुच्याङ्गान्यास्तेऽन्तःकुक्षौ ||
62. मातृ तः पितृ त ..... समुदितेभ्यो गर्भः सम्भवति |
63. तं चेतनावस्थितं वायुर्विभजति, .....विवर्धयति I

#### Point - 4 Garbhini Vigyana

---

64. Define the Pumsavankarma and write the method of the same.
65. Define the Dauhrida and write the effect of Dauhrida Avamanan on the foetus.
66. Define the Dauhrida Avamanan and write the effect of Dauhrida Avamanan on the foetus.
67. Write short note on Leena Garbha.
68. Write short note on Hydatidiform mole.
69. Write short note on Rakta Gulma.
70. Types and complications of abortion.

71. Write short note on Antamrita Garbha.
72. Write short note on IUFD.
73. Write short note on IUGR.
74. Write complications of ectopic pregnancy.
75. Write short note on multiple pregnancy.
76. Write Samanya Garbhini Paricharya.
77. Write short note on Garbha Shosha.
78. Short note on Rh –incompatability.
79. Importance of Masanumasik Paricharya.
80. Write short note on Pumsavana.
81. Write short note on Dauhrida Avamanan.
82. Write short note on Upashushka.
83. Write Garbhini Lakshanas.
84. Write symptoms of Nagodara.
85. Write symptoms of Upavishtaka.
86. Write symptoms of Leenagarbha.
87. श्रमो ग्लानिः ..... स्फुरणं च योनेः ॥
88. स्तनयोः कृष्णमुखता रोमराज्युद्गमस्तथा  
..... गर्भिण्या लिङ्गमुच्यते ॥
89. यस्या मध्ये निम्नं द्रोणीभूतमुदरंसा ..... प्रसूयत इति ।
90. लब्धगर्भायाश्चैतेष्वहः..... नासापुटे पुत्रकामायै ।
91. गर्भो वृद्धिं प्राप्नोति..... तमुपविष्टकमित्याचक्षते केचित् ।
92. स चापि कालमवतिष्ठतेऽतिमात्रम् अस्पन्दनश्च भवति..... ।
93. निष्ठीविका ..... सदयोऽनुगतस्य लिङ्गम्

### Point - 5 Garbhini Vyapad

94. What is the relation of anemia and maternal mortality?
95. Define the APH, write the causes of the same.
96. Write the treatment of Garbhini Chhardi.
97. Write diagnosis and treatment of toxemia of pregnancy.
98. Write causes and symptoms of Garbhini Chhardi.
99. Write causes and complication of Ante partum hemorrhage.

100. Write causes, symptoms and treatment of Garbhini Makkala.
101. पूर्णमिवतैलपात्रमसङ्क्षोभयता..... भवत्युपचर्या।
102. गर्भोत्पीडनाद्वातपित्तश्लेष्माण उरः प्राप्य विदाहं जनयन्ति,  
ततः कण्डूरुपजायते, कण्डूमूला.....।
103. गर्भाशयाच्च्युतगर्भाया .....मक्कल्लसञ्जं भवतीति ज्ञेयम्।
104. Define the physiological anemia during pregnancy.
105. What is role of urine examination in PIH?
106. What are the maternal and perinatal complications of PIH?
107. What are the effects of diabetes on pregnancy.
108. What is emesis gravidarum, write the types of the same
109. Define the placenta previa, discuss the types of the same.
110. Write causes, symptoms and treatment of Kikkisa.
111. Write the advantages of HIV screening in pregnancy and its effects on pregnancy.
112. Write the treatment of Vibandha, Udavarta and Parikartika .
113. List the edema of legs in pregnancy, discuss the physiological edema.

## Paper I

## Part -B

### Point -1 - Prasav Vigyana

---

#### 5mark questions

114. Discuss the partograph .
115. Prasav Paricharya according to Ayurveda.
116. Write events of first stage of labour.
117. Write events of second stage of labour.
118. Write events of third stage of labour.
119. Write the Upasthit Prasava and Asannaprasva Lakshanas.
120. Write the short note on Sutikagar.
121. Write the Prajayini and Upasthit Prasva Lakshanas.
122. Discuss the premonitory stage of labour.
123. Write the short note on lightening.

124. How many stages of labour, define them with their duration.
125. Write short note on management of first stage of labour.
126. Write short note on management of second stage of labour.
127. Write short note on management of third stage of labour.
128. Differential diagnosis of true and false labour pain.
129. Write short note on Prasavkala.
130. Write short note on Sangrahaniya Dravyani .
131. Write short note on Prajayani.
132. Write short note on Upasthit Prasava.
133. Write short note on care & resuscitation of new born.
134. जाते हि शिथिले .....प्रजायिनी |
135. .... पुरीषप्रवृत्तिर्मुत्रप्रसिच्यते योनिमुखाच्छलेष्मा च |
136. ....ततोऽनन्तरमावीनां प्रादुर्भावः, प्रसेकश्च गर्भोदकस्य |
137. कालस्य परिणामेन .....पतितुं ध्रुवम्|
138. एवं कालप्रकर्षेण .....गर्भो जननाय प्रपद्यते I

### Point -2 - - Prasav Vyapad

---

139. Indications and contraindications of CS.
140. What is assisted labour, write its indications.
141. Define the induction of labour, write its indications and methods.
142. Define the augmentation of labour, write its methods.
143. Discuss the causes of prolonged labour.
144. Define the PPH, write its causes.
145. Write short note on Yonisamvarana.
146. List complications of Mudhagarbha, describe any one.
147. List the complications of third stage, write perineal tear.
148. Define the ventouse, write its indications and contraindications.
149. Write the prerequisites for operative vaginal delivery.
150. Define the outlet forceps, write the steps of low forceps operation.
151. Write the complications of assisted labour.
152. Write the management of Aparasang.
153. Write the types and Gati of Mudhagarbha.
154. Define the preterm labour, write its management.
155. List the care to take during conducting preterm labour.

156. Define the prolonged pregnancy, write its management.
157. Write the procedure of manual extraction and Shashtrakarma of Mudhagarbha according to Acharya Sushruta.
158. ततः .....परिघ इति |
159. अथापराऽपतन्त्यानाहाध्मानौ कुरुते।
160. गर्भकोषपरासङ्गो.....यथोक्ताश्चाप्युपद्रवाः

### Point -3 Sutikka Vigyana

---

161. Discuss sutika Makkal.Sutika Paricharya in detail.
162. तस्यास्तु खलु यो व्यधिरुत्पद्यते स क्रुच्छ्रसाध्यो भवति असाध्यो वा.... complete the verse and explain.
163. Describe Sutika jwara with its treatment.
164. Explain Jatamatra Paricharya according to Ayurveda and modern science.
165. Write causes, clinical features and management of Sutika Jwara.
166. Explain: स्तन्याभावे पयच्छागं गव्यं वा तदगुणं पिबेत
167. Short note: involution of uterus.
168. Describe: तत्र संशोधनं आग्नेय द्रव्याणां....
169. Explain: रसप्रसादो मधुरः पक्वाहारनिमित्तजः  
क्रुत्स्नदेहात् स्तनौ प्राप्तः स्तन्यमित्यभिधियते
170. Describe Sutikaagar and labour room in present era.
171. Define Nidana, Lakshana and Chikitsa of Sutika Roga.
172. Give matra, Anupana, Kala and Use: Dashmoola Kwatha, Devadarvyadi Kwatha
173. Define Stanya Pravrutti Hetu and Stanya Naasha Hetu.
174. Describe Physiology of lactation.
175. Stanya Kshaya Lakshana and its treatment.
176. Stanya Vruddhi lakshana and its treatment.
177. Stanya Dushti Chikitsa along with Pathya Pathya
178. Puerperal pyrexia
179. Define artificial feeding: Ayurved and Modern prospect

180. यत क्षीरमुदके क्षिप्तमेकीभवति पाण्डुरम  
मधुरं चाविवर्णम् च प्रसन्नं तद्विनिर्दिशेता

**Paper I**

**Part -A**

**2 mark questions**

**Point -1 - Stree Shariravigyana**

---

1. List the Peshis are situated in female genital tract.
2. List the Marmas are situated in female genital tract.
3. Why the vaginal pH is acidic?
4. What are the functions of Doderlein's bacilli?
5. What are the benefits of acidic vaginal pH?
6. Write the weight and measurements of uterus.
7. List the ligaments of the uterus.
8. Where are the fourchette and fosa navicularis.
9. Location of Bartholin's gland.
10. Write the blood supply of vulva.
11. List the internal genital organs of female.
12. List the organs of external genital organs.
13. Write about vaginal secretion.
14. Write blood and nerve supply of vagina.
15. Write the location of uterine artery.
16. Write functions of fallopian tubes.
17. Write the Asthi of Stree Shroni according to Acharya Sushruta.
18. Write the Vayobhedan Stree Sangnya according to Acharya Harita.
19. Write Artava Vaha Srotas.
20. Write the shape of the Garbhashaya and yoni.
21. List the types of pelvis.
22. Write the meaning of word "Stree".
23. Stree Vay Vishesh Sangnya according to Parashar Smruti.
24. What is the pouch of Douglas?
25. Write the normal vagina and cervical pH.
26. Which are the Viddha Lakshanas of Artava Vaha Srotas?

27. Write the number of Artava Vaha Srotas and root of the same.
28. Which types of Asthi and Sandhi are in the Shroni?
29. Write the shape of the Yoni and how many Avartas are situated in it.
30. Write the measurement of diagonal and obstetric conjugate.

### **Point -2 - Rajo Vigyana**

---

31. List the neurotransmitters in the control of GnRH secretion.
32. List the neuromodulators in the control of GnRH secretion.
33. What is LH surge?
34. Define the puberty.
35. List the secondary sexual characteristics.
36. Where does the GnRH secret?
37. List the gonadotrophins.
38. Where does the oestrogen secret?
39. Where does the progesterone secret?
40. What is the size of mature Graffian follicle?
41. Which day of menstrual cycle the ovulation does occur?
42. Define the menstruation.
43. How many follicles are recruited in each menstrual cycle?
44. What is corpus luteum?
45. Which hormone is secret from corpus luteum?
46. Write the normal age of Pratham Rajodarshana.
47. List the Rutumati Lakshanas.
48. Write the duration of Rutukala.
49. Write the importance of Rutukala.
50. What is Rutuvyatitkala?
51. Write Shuddha Lakshanas of Artava.
52. What is ultrashort feedback loop?
53. What is short feedback loop?
54. What is long feedback loop?
55. Write the normal amount of menstrual blood.

### **Point - 3 Garbha Vigyana**

---

56. Which Mahabhutas are responsible for formation of Shyam and Krushna Varna?
57. How does the Kanya Garbha form?
58. Write the Paribhasha of Garbha according to Acharya Charaka.
59. Write the Paribhasha of Garbha according to Acharya Sushruta.
60. List the name of foetal membranes.
61. List the abnormalities of placenta.
62. What is the meaning of LOA and LOP.
63. What is the meaning of ROA and ROP.
64. What is the AFI.
65. List the Garbhasambhava Samagri.
66. What is the Ulba?
67. How many types of lie?
68. How many types of presentations?
69. Write the normal weight and length of foetus at 24 weeks.
70. Write the normal weight and length of foetus at 28 weeks.
71. Write the normal weight and length of foetus at 32 weeks.
72. Write the normal weight and length of foetus at 36 weeks.
73. Write the normal weight and length of foetus at full term.
74. What is the meaning of  $V_1$  and  $V_2$ .
75. What is the meaning of  $V_2$  and  $V_3$ .
76. What is the meaning of  $V_3$  and  $V_4$ .
77. What is the meaning of  $V_1$  and  $V_4$ .
78. What is the barrier function of placenta.
79. Write the structure of chorionic villi.
80. How many maternal cotyledons in placenta.
81. How many foetal cotyledons in placenta.
82. Write the amount of amniotic fluid at 24 wks and at 32 wks of pregnancy.
83. Write the normal length of umbilical cord and weight of placenta.
84. What is the Jarayu?
85. List the causes of Garbha Anga Vikruti.

#### **Point - 4 Garbhini Vigyana**

---

86. List the investigations during pregnancy.
87. Definition of Garbhastrava and Garbhapata.
88. Define the Dauhrida.
89. Define the Pumsavankarma.
90. Define the Dauhrida Avamanan.

91. List Sadhyogruhitgarbha Lakshanas.
92. List Vyaktagarbha Lakshanas.
93. Definition of threatened abortion.
94. Definition of inevitable abortion.
95. Definition of missed abortion.
96. IUGR.
97. IUFD.
98. List the varieties of multiple pregnancy.
99. List the type of abortions.
100. Write trimester wise weight gain during pregnancy.
101. Why frequency of micturition is observed during first and third trimester.
102. What is Jacquemier's sign?
103. What is Chadwick's sign?
104. What is Osiander's sign?
105. What is Hegar's sign?
106. What is Palmer's sign?
107. Write the normal period of pregnancy in days and weeks.
108. Which is the cardinal symptom of Upavishtaka?
109. Which is the cardinal symptom of Upashushka?
110. When can mother be felt foetal movement as early as?
111. When can the foetal heart sound be audible by stethoscope?
112. What is uterine souffle?
113. List the obstetric grips.
114. Definition of missed abortion.
115. Definition of septic abortion.
116. List the Garbhavyapadas according to Acharya Sharngdhara.

### **Point - 5 Garbhini Vyapad**

---

117. List the types of A.P.H.
118. List the complications of gestational diabetes.
119. What is Garbhini Makkala?
120. Write the symptoms of Garbhini Pandu.
121. Write the treatment of Kikkisa.
122. What is the APH? Write its causes.
123. What is Garbhini Parikartika?
124. Define the pre eclampsia.

125. Write the Pathya Ahara in Garbhini Pandu.
126. Why pregnancy is considered diabetogenic?
127. Define the gestational hypertention.
